

Exclusion Zone Premium 0.8m x 50m

Product Images

Short Description

Exclusion Zone Premium 0.8m x 50m is a top-tier barrier designed to keep things in or out. With a length of 50 meters and a height of 0.8 meters, it's perfect for creating a secure zone tailored to your needs. Whether you're safeguarding a construction site, managing crowds, or defining boundaries, this premium exclusion zone delivers durability and reliability in a compact package.

Description

Printed exclusion zone typically features clear and visible markings, such as lines, stripes, or signage, positioned at a height of 0.8 meters above the ground or floor level. The purpose of this zone is to communicate a specific message or safety precaution, alerting individuals to stay clear of the defined area for various reasons, including safety, security, or regulatory compliance. It serves as a visual cue to prevent unauthorized entry and ensure the safety and order within a particular space.
