## **Short Description**

MEA Drain Supreme AC2000 200mm CI Edge Polymer ConcreteChannel 200mm Total Depth C/W ductile iron longitudinal heelguard grate, class E , PROFIX

## Description

The MEA Drain Supreme CI Edge Channel with Ductile Iron Heelguard Class E Grate is a durable and reliable drainage solution for road infrastructure projects. It is made of high-quality polymer concrete and features a cast iron edge rail for added strength and longevity. The Class E ductile iron heelguard provides a sleek pedestrian safe finish. The system includes the profix rapid locking system to lock and prevent grate movement Features: • 200mm deep channel • Made of high-quality polymer concrete for durability and longevity • Cast iron edge rail for added strength and corrosion resistance • Ductile iron heelguard grate • Class E grate Benefits: • Provides efficient drainage of stormwater and other liquids • Helps to protect against flooding • Pedestrian safe Applications: • Motorways and road construction • Petrol stations and driveways • Commercial and industrial properties

## **Additional Information**

CODE	ACP-712831K1
U.O.M	Each
Material	Polymer Concrete
Channel Depth	200mm
Channel Width	200mm
Range	Supreme
Channel Length	1000mm
Grate Safety	Heelguard
Load Rating	Class E
Locking Type	Profix
Grate Material	Ductile Iron
Channel Meterial	Polymer Concrete
Swatch	no_selection
