

OC Eco T-Top Traffic Bollard

Product Images

Short Description

OC's commitment to sustainability and quality is matched by their dedication to supporting local industries. The Eco T-Top Traffic Bollards are proudly Made in Australia, ensuring high standards of production and supporting the local economy.

Description

SUSTAINABILITY AT ITS CORE OC's

Eco T-Top Traffic Bollards are the first and only bollards in Australia made entirely from 100% recycled materials. Since their introduction in 2022, OC has successfully diverted over 24 tonnes of plastic from landfills. By choosing these bollards, you're not just ensuring safety but also contributing to a greener planet.

CREATING POSITIVE SOCIAL IMPACT

Recognized by Social Traders as a certified social enterprise, OCC Enterprises employs more than 100 individuals with disabilities and aids them in securing employment opportunities aligned with their objectives.

UN-COMPROMISED QUALITY

While OC's bollards are eco-friendly and socially responsible, they never compromise on quality. These bollards are weather resistant, long-lasting, and comply with the stringent AS/NZ 1906.1 regulations. You can trust in their durability and performance, ensuring your safety needs are met without compromising on standards.

SPECIFICATIONS
