

HydroPower Hot Water System 10L

Product Images

Short Description

Efficient hot water system with hydro power ignition, no power or batteries needed. Perfect for portable showers, providing instant hot water with continuous flow technology for energy savings.

Description

Designed to pair perfectly with the Portable Shower, the HydroPower Hot Water System delivers hot water on demand without the need for electricity or batteries. With hydro power ignition, this system heats water using external LPG, offering efficient continuous flow technology that only heats when needed—no water flow restrictors required.

Ideal for remote worksites or outdoor events, this hot water system ensures a reliable, energy-efficient solution.
