
1.5T – 0.85cu.m Concrete Collection Tray

Product Images

Short Description

Efficiently collect concrete waste and washout water with our durable 1.5T Concrete Collection Tray, designed to minimise environmental impact on job sites.

Description

The 1.5T Concrete Collection Tray is an essential tool for any concrete pumping operation, expertly designed to limit environmental damage. With a generous 0.85 cu.m capacity, this low-profile tray fits seamlessly under your concrete pump, effectively capturing spillage and washout water.

Crafted from robust powder-coated steel, it features reinforced sides and a sturdy base for maximum durability. The tapered sides facilitate easy access, while the integrated crane lifting and up-ending lugs make maneuverability a breeze. With 4-way fork pockets, you can effortlessly access the tray from all angles.

Measuring 2070 x 1765 x 400mm and weighing 215kg, this orange collection tray not only enhances efficiency but also promotes responsible waste management on site. Make your concrete operations cleaner and more efficient with this reliable collection solution.
