

Trafix 2400 Fence Weight - Orange

Product Images

Short Description

Australian-made water-filled weight base (Orange), perfect for easy-to-install and cost-effective temporary fencing. Lightweight when empty, UV-resistant, and versatile with 90 or 180-degree positioning.

*** Fence panel not included**

Description

Fencing Water Filled Weight Base - Orange offers a practical and secure solution for temporary fencing needs. Designed for efficiency, this Australian-made base is lightweight at just 18kg when empty, making transport and installation simple and cost-effective.

Once filled, it weighs 280kg, providing stable support for fencing. Constructed from UV-resistant polyethylene, it withstands tough outdoor conditions, ensuring durability and color retention. The base can be placed at either 90 or 180 degrees, allowing for flexible positioning to suit various site layouts.

Ideal for projects where convenience and strength are essential, this weight base is a top choice for temporary fencing.

- Dimensions: 2400mm (L) x 570mm (W) x 500mm (H)
- Weight: 18kg (empty), 280kg (filled)
- Material: UV-Resistant Polyethylene (25% recycled)
- Colour: Orange
