

# Universal Dowel Sleeve Round 12Mm X150mm

## Product Images

## Short Description

**NEW: Joint Select Calculation Tool — your easy, go-to solution for concrete joint calculations. [Click here to get started!](#)**

## Description

---

### UNIVERSAL DOWEL SLEEVES

- Full length sleeve ensures no concrete to dowel bonding
- Provision for longitudinal expansion in the ends of all sleeves
- Rectangular sleeves for square dowels allow for lateral expansion
- Injection moulded for accurate tolerances and maximum straightness
- Stiffening ribs to minimise distortion
- Simply twist & turn into knock-outs in Connolly Key Joint
- Can be used as a face fixing sleeve on conventional timber or steel formwork
- Can be used as part of a dowel cradle or basket
- Length can be trimmed to suit any dowel length
- Support leg/stand allows extra support to ensure correct alignment is maintained during pour
- Unique end closure prevents slurry entering around square dowels
- All UDS's (excepting 33mm round) have legs/stands that can be easily snapped off for height adjustment.
