

Jute Squares 600mm (50pk)

Product Images

Short Description

Jute Mat Tree Squares mats can absorb up to three times their original mass, ensuring trees get all the required nutrition and enabling stable growth. Available in two sizes 600mm and 370mm (square)

Description

Jute Mat Tree Squares mats can absorb up to three times their original mass, ensuring trees get all the required nutrition and enabling stable growth. The key benefit of them is longevity.

While other natural fibre mats will withstand weed growth for up to 1-2 years depending on environmental conditions, Jute Mat Tree Squares has already surpassed weed growth for 3 years and is still going strong.

Applications:

- Revegetation projects
- Landscaping
- Erosion Control
